

# Volunteer for PALOS RESTORATION PROJECT Winter-Spring 2009

Working locally with Forest Preserve District of Cook Co. Get connected with nature, make a difference restoring native ecosystems. Learn about native plants and habitats. Join others who love wildlife. Groups welcome, please call.

Only 3 hours with refreshment break. Depending on the season we pull garlic mustard, cut brush, burn brush piles, collect & spread seed. We supply gloves & tools. Just dress appropriately. It's wonderful to see the seasons unfold.

**Feel free to call. We'd love to have your help.**
